14 File No. C.F. S 1052 - II - Q

Submitted with reference to Govt. letter No. CIS 1052/102079-9, dated the 6th November 1952.

2. M/s. Union Engineering Works, Bombay have complained about the alleged irregularities in distribution of iron and steel by M/s. Bombay Controlled Registered stockholders Association, Ltd., Bombay. The Association holds the Private Industrial Dev. Quota, the Steel processing Industries quota and G.D.S. quota. The present complaint appears to pertain to the distribution of steel for S.P.I. quota for which quota certificate was issued by the R.O. (I & S), on the recommendations of the Dir. of Industries. The stocks held by the Association are not reported to the R.O. (I & S), Bombay as they are working under the Control of Iron and steel controller, Calcutta-

3. At present there is no machinery either with the Govt. of India or with State Govt. to check up registers maintained by Controlled stockholders to scrutinise whether or not the materials are being allocated according to the quotas of registration. This gap in the enforcement of control on distribution of iron and steel leaves scope for possible discrimination on the part of the stockholders, who might supply to the quota holders such quantity of steel as they conveniently can. The present complaint from M/s. Union Engineering Works, Bombay is an instance. In order to remove this gap in the enforcement of control on distribution of iron and steel it has been decided to start-in-additional staff of one overseer, one Inspector and one clerk in the office of the R.O. (I & S), Bombay, from the beginning of the next financial year to undertake the work of checking registers etc. of the Controlled Stock holders. The

proposal has been forwarded to the P.D. as a new item of expenditure for the next financial year vide G.L. No.576/48-X, dated the 1-11-52. Necessary powers of the Controller under the Iron and Steel (control of production and Distribution) Order 1951 have already been delegated to the R.O.(I & S), Bombay, by the Govt. of India and the work of checking registers etc of.

the Controlled stockholders will be taken by the R.O.(I & S) as soon as addl. staff for the purpose is entertained. In view of this it seems that nothing can be done at present in regard to the complaints made by M/s. Union Engineering Works, Bombay. However, their grievance that there is no check on the Controlled stockholders will automatically be met as soon as the abovementioned additional staff is entertained.

Id/-
15/12/52.

Additional staff item has not yet been accepted for the budget; nor is more staff likely to be sanctioned. R.O. must do what he can in the way of inspection with his existing staff. He may be so informed.

2. M/s. Union Engineering Works, Bombay had complained about the alleged irregularities in distribution of iron and steel by M/s. Bombay Controlled Registered Stockholders Assn. Ltd., Bombay. The Association handles the Private Industrial Dev. quota and the G. D.S. quota. The complaint regarding the irregularity in distribution of steel by M/s. Bombay Controlled Stockholders Assn. Ltd. pertained to the P.I.D. quota. As there was no machinery to check up such irregularities, it was proposed to enter in addl. staff of one overseer, one inspector and a clerk in the R.O.'s office and the Proposal was put up as a New item statement for next financial year. However in view of Secretary's note dt. 13/12/53 the R.O. was addressed in terms of Govt. letter dt. 40/12/53 No. CIS/1052-Q, dt. the 5-1-53.

In his letter No. 506P dt. 10-2-53 the R.O. (IAS) now states that as the Govt. of India have authorised the Dir. of Industries to exercise the powers of the Controller under clause 11D of the Iron and Steel (Control of Production & Distribution) Order 1941 he may be requested to take further action regarding the alleged irregularity in the distribution of iron and steel by M/s. Bombay Controlled Reg. Stockholders Assn. Ltd. It may be stated here that complaint pertains to the P.I.D. quota handled by the Dir. of Industries. In view of this and in view of what is stated by the R.O. (IAS), Bombay in his letter dt. 10-2-53 it is for orders whether the Dir. of Ind. should be asked to take further action regarding the alleged irregularity for orders. Id/-

Secy. D.D. may see first, before
orders as proposed are issued.

10/2
=====

Ind. Deptt.

The Union Engineering Works had complained about the alleged irregularities in the distribution of steel by the Bombay Controlled Dept. Stockholders' Assn., Ltd. In order to investigate the alleged irregularities, it is necessary to check up the registers maintained by the stockists. So far, such a check was not exercised either by the State or Central authorities. When such a need was felt, it was proposed by D.D., and agreed to by the then L. & H.D., that this should be done by the B.O. (I&S). The extra staff required for this additional work has, it appears, not been mentioned so far. In the meanwhile the work of Inspection and Enforcement of Control was transferred to the Dir. of Inds. so far as the allotment of steel for industrial purposes was concerned. Some staff was also transferred to the Inds. Deptt. for this purpose. The statutory powers for this purpose have only recently been delegated to the Dir. of Inds.

2. It may be observed from the above that the B.O., who was formerly doing the work of inspection and enforcement of control in respect of the entire State quota of steel needed additional staff for the task of checking the registers maintained by the Regd. Stockists. The Director cannot, therefore, have the requisite staff to undertake this task. As the requisite powers have been recently delegated

delegated to the Dir. of Inds. vide G.N., No. IRS 1051/4484Q-A, dated 5-4-53, this Deptt. may not object to the Director being asked to investigate the alleged irregularities by the Bombay Controlled Regd. Stockholders' Assn., even though the Director may not be able to do the job any better than the R.O., neither of them having the additional staff required for the purpose.

Id/-
2/3.

It is no use asking the Dir. to do the investigation unless additional staff is given to him for the purpose. The Dir. may be asked to state what staff will be necessary for this purpose. He may see the papers.

Id/-
2/3.

u.o.r. to the Dir. of Indus. March 53.

Industries Department.

Returned with compliments.

2. Attention is invited to the D.D. letter No., IRS.1051/33972-A, dated the 19th Sept. '52 addressed to the Under Secretary to the Govt. of India, Ministry of Commerce and Industry, New Delhi, on the subject of delegation of powers to the Director of Industries under the Iron & Steel (Control of Production and Distribution) Order 1941. It will be observed from para (2) of the letter mentioned above that Govt. had requested the Ministry of Commerce & Industry to delegate the Director of Industries powers of the controller under clauses 11(2), 10(c) and 11-D of the Iron and Steel (Control of Production and Distribution) Order 1941. The Central Government were, however, pleased to authorise the Director of Industries, Bombay to exercise the powers of the Controller under Clause 11-D only, (vide, Govt. notification No. SC(A)-4(109)-A dated New Delhi, the 30th Oct. '52 copy enclosed for ready reference.)

3. It would appear that clause 11-D of the Iron & Steel order would authorise the Director of Industries to enter any premises, inspect books or seize any articles in respect of which a contravention of the Iron & Steel Order is about to be committed. However, the power to require a stockholder to furnish accounts and returns of stocks held by him, to direct him how to maintain records or to freeze stocks could be exercised only if powers of the Controller under clauses 10 c, 11(2) and 11(2) were delegated. It would, therefore, appear that only the R.O.(I & S) to whom these powers are reported to have been delegated can exercise the necessary functions in this respect.

4. In connection with the above it may be stressed that although the Govt.'s intention was to delegate to the Director of Industries powers under clauses 10 c and 11(2) with a view to enabling him to exercise control on stockists; it is felt that in the interest of uniformity, economy and convenience it would be better if the R.O.(I&S) alone exercises these powers. It is, therefore, not necessary to approach Govt. of India again in this matter.

5. So far as the case under consideration is concerned, it may be stated that after the complaint in question was received from the Union Engineering Works in Oct. 1952, the R.O.(I&S) personally investigated the subject matter and obtained the explanation from the Bombay Controlled Registered Stockholders' Assn. a copy of which is enclosed for the information of Govt. The Association's explanation may be accepted.

DEVELOPMENT DEPARTMENT.

Secretariat (Annexe), Fort, Bombay, 5th January 1953.

No. IRS. 1051/44980-A.- The following notifications by the Government of India, Ministry of Commerce and Industry, are republished:-

No. SC(A)-4(109), dated New Delhi, the 30th October 1952.

In exercise of the powers conferred by sub-clause (a) of clause 2 of the Iron and Steel (Control of Production and Distribution) Order 1941, the Central Government is pleased to direct that the following amendment shall be made in the Notifications of the Government of India in the Ministry of Industry and Supply, No. 1(1)-1(106), dated the 8th March 1948 and No. (1)-1(699)/48-B, dated the 16th August 1948, as amended from time to time, namely:-

To the Schedule annexed to each of the said Notifications, the following entry shall be added, namely:-

"The Director of Industries, Government of Bombay, Bombay."

No. SC(A)-4(109)-A, dt. New Delhi, the 30th October 1952.

In exercise of the powers conferred by sub-clause (a) of clause 2 of the Iron and Steel (Control of Production and Distribution) Order, 1941, the Central Government, is pleased to authorise the Director of Industries, Bombay, to exercise the powers of the Controller under clause 11-D of the said Order, within the State of Bombay,

(Signed) . D. HERMADI,

Under Secretary to the Government of India.

By order of the Governor of Bombay,

K. L. PANJABI,
Secretary to Government.

Submitted with reference to the office note dt. 26-2-53 and Secy's note thereon.

2. The Dir's statement that he has been delegated powers under clause 11-D of the Iron and Steel (Control of Production and Distribution) Order, 1941, and not under clauses 10 (a) and 11(2) of the Order is not correct. The requisite powers have been delegated to him under Govt. of India Notification No. SC(A) 4(109), dt. 30-10-52, which is reproduced under G.N.No. IRS, 1051 44840-A, dt. 5-1-53 clause 11(2) of the Order reads as follows:-

"Every Producer or stockholder or person holding stocks of iron and steel and every person employed in connection with the business or a producer or stockholder or person holding stocks of iron and steel shall on being requested so to do, either by notice served on him or special or general direction issued by the Controller-

(a) produce to such person, such accounts and other documents and within such period as may be specified in the notice or direction,

(b) furnish to the controller such estimates, returns and other information relating to the business and within such period as may be specified in the notice or direction."

It would not, therefore, be correct to say that the Dir. is not statutorily equipped for exercising a check on the registers maintained by the stockists. The Dir does not need as hinted by him any additional powers under any other clause of the Iron and Steel control Order for the purpose.

3. As regards the Dir's suggestion that the R.O.

(I & S) should continue to exercise the powers under clauses 10(c), 11(2) and 11-D of the Iron and Steel Control Order in the interest of uniformity, economy and convenience, attention is invited to the office note dt. 27-8-52. In a meeting, attended by Shri Dravid, the Secy., L. & H.D., Dr. Dhume and D.S., D.D. it was agreed to transfer the work of inspection and enforcement of control relating to 35% non-agr. quota from the R.O.(IAS) to the Dir. of Ind. Some staff had already been transferred under G.R., L. & H.D. NO. 576/46, dt. 29-1-51, to the Dir's office for the purpose. In view of this and in view of the fact that the Dir. has now been delegated the requisite statutory powers, it is hardly likely that the R.O.(I.&S.) and P.W.D. would now agree to continue to exercise the control in respect of the quota looked after by the Inds. Deptt. though the work of issuing quota certificates is still done by the R.O. The Dir's suggestion may not, therefore, be accepted.

4. However, it must be mentioned that besides the 35% non-agr. quota, the Dir. allocates steel from S.P.I.(State) quota and recommends allotment of steel from S.P.I.(Central) and P.I.D. quotas also. The Dir. would need more than the existing staff for exercising control in respect of all these quotas. This, however, it is suggested, need not be pursued here. Copies of these notes may be kept on D.D. papers put up below, and the Dir. requested separately to state what staff will be neeq. for the purpose.

5. As regards, the alleged irregularity by the Bombay Controlled Reged. Stockholders Assn. Ltd., the Dir. has forwarded an explanation of the Assn. which appears to be adequate. If this explanation is accepted, there would be no need for any investigation so far as the particular case is concerned.

2. The D.D. has agreed to the transfer of the work of inspection and enforcement of control relating to steel quotas pertaining to the steel Processing Industries and Private Industrial Dev. being done by the Dir. of Industries, Bombay, as the requisite statutory powers have been delegated to him. In view of this, the Controller of Iron and steel and cement, Bombay, may now be asked to transfer the work of inspection and enforcement of control relating to the steel quotas pertaining to the S.P.I. & P.I.D. with immediate effect.

3. As regards alleged irregularity by M/s. Bombay Controlled Reg. Stockholders Assn. Ltd. the D.D. has accepted the explanation of the assn. The Controller of iron and steel and cement may be informed accordingly.

4. A draft letter is put up accordingly.

From

The UNION ENGINEERING WORKS,
ENGINEERS & CONTRACTORS.

Date, 16th October, 1952.

To

The Director of Industries,
Old Custom House,
Bombay.

Dear Sir,

Re: IRREGULARITIES in Distribution of steel
by the Bombay Controlled Registered Stock-
Holders' Association Ltd.

We have always endeavoured to expose malpractices, wherever they are to the authorities concerned. Sometimes many authorities are concerned, and we send copies to all. We put forth a few facts herbelow, which verily stifle our industry.

You would be aware that we are far from being satisfied with the quarterly quota (30 tons) of steel, which is a small fraction of our consumption capacity (110 tons). But small allotment is NOT OUR ONLY HANDICAP. There is ANOTHER OF EQUAL IMPORT. And that is THE POOR SUPPLY OF MATERIAL to us by the CONTROLLED STOCKISTS.

The procedure for sale of material with the Bombay Regd. Controlled Stock-holders' association Ltd., is this. When we get our quota-certificate, we approach them for placing our indent with them. They register our indent and give us a serial reference number, such as E/91. The letter changes every period and the number changes for each quota-holder. For example E/91 is the serial number of the Union Engineering Works for period IV/51. The purpose of giving the numbers should be for observance of a rule for distribution of steel in strict order. But it is our experience that the rule is observed only in ignoring the serial order. Each day more material is sold OUT OF ORDER than IN ORDER of placing of INDENTS. Some thing has got to be done MOST URGENTLY for putting an end to the irregularities of the Controlled stockists. An enquiry should be made into the way they distribute the material as it comes to them. There are parties who get their material cleared up in the same period, or the next at the latest. Material is supplied to the parties whose numbers are on the G & H. series, when requests of even E & F series parties for the same category of steel are kicked aside.

Unless we give particular instances, we are apt to be considered as making wild general accusations without concrete facts to support them. Hence we have got to bring in some names which we bear no malice towards. The writer will narrate only the today's incident. This is just a sample of what happened daily.

We have yet to get 5 tons of 1/8" plates on number E/91, for period IV-51, from the Bombay Con. Regd. St. Assn. Ltd. The writer was actually asked yesterday by the Secretary to try his luck today. So he went there today, and asked the Secretary if he could favour him with GOOD LUCK. The Secretary told the writer that 1/8" plates were not at all in stock for a long time and that he was very sorry. Just then he delivered to a party a note wherein was written:

P.T.O.

G 414))
 Allied Steel Traders)
 7/8" Bars - 1 tons)
 8'-4'-1/8")- 5 tons)
 Plates.) -)

Every party whom material is to be supplied gets such a note from the Secretary. When a party gets such a note, they can pay money and get the delivery order for material required. Here we saw IN FRONT OF OUR EYES that SHEER INJUSTICE was daringly being done to us and others like us.

The Secretary, when questioned by the writer to explain this irregularity, had to disprove that that party was getting the material only on special instructions from the Directors. We wanted to know if the Directors had such powers. The Secretary says, they have ALL POWERS. When questioned whether what he said could be taken officially, he says he does not want to get involved and he would go to the Directors. Which director in particular, we asked? We were told the name -- Mr. R.M. Valli.

Mr. Valli has always an excuse which could be taken into our face any time. He says, he gives material to the extent of 33% to attract new business. This is an excuse, as hollow as could be, for orders which are of G series when the current series is I -- series. We question their very right of offering material at all for attracting business.

Further, when notes of the type above referred to are made out and handed over to the parties, all possible secrecy is maintained. Even when looking into their stock position, the secretary takes his stock books quite close to his eyes, taking all precautions that nobody else's eyes see into the sinful records.

There seems to be no check or no effective check on them, by any official authority. We are of the opinion that even we, the quota holders, should have a check on them. Whatever material is received by the stockists, that material, as well as the way it is maintained near or outside their office. Should an enquiry be made into the matter, the writer will be only too willing to be helpful in all possible manner.

This is a legitimate grievance from Industry and we look forward to expeditious action in the matter.

Looking forward to a reply,

We are,
 Dear Sir,
 Yours faithfully,
 For THE UNION ENGINEERING WORKS.

(H. Z. GILANI), Partner,
 B. Sc.

Bombay C-5110, Bombay(1).

Sub:- Alleged irregularities in distribution of steel
by Messrs. the Bombay Controlled Registered
Stockholders' Association Limited, Bombay.

Ref:- Your NO. CIS 1052/108679-G dated 6-11-52
and this office No. 6602-F dated 21-11-1952.

On going through the letter No. 131/S dated 16-10-1952 from the Union Engineering Works Bombay, (10), copy of which is received now from the Director of Industries, Bombay, the complaint made by the Union Engineering Works, is in respect of the material against Quota Certificates issued by this office to them as per recommendations from the Director of Industries, Bombay. The controlled stocks held by the Bombay Controlled Registered Stockholders' Association Limited, as Controlled Stockists, are not reported to this office monthly as they are working under the control of the Iron and Steel Controller, Calcutta, in regard to these stocks.

As stated by the party in the penultimate para of his letter, there is no check at present by this office on the working of the Controlled Stockists. For such a check to be done by this office effectively, extra staff has been asked for and Government have under consideration this proposal please vide correspondence resting with Government letter No. 546/41/100780 of 21-11-1952. The work of checking up the registers of Controlled stockists and putting them in proper order is laborious and will require full time work from the Overseer and Inspector asked for. It is, therefore, requested that necessary orders for the additional ~~work in the form of this office~~ staff may kindly be issued early to enable this additional work to be done by this office.
